

Safety Tips for Walkers and Bicyclist

Always walk on the sidewalk or pathway.

If there is no sidewalk and you have to walk in the road, always walk **FACING** traffic.

Always wear your helmet while riding your bike.

Use your head! Helmets can save your life, and it's the law!

Dress to be seen.

Brightly colored clothing makes it easier for drivers to see you during the daytime. At night, you need to wear special reflective material on your shoes, cap or jacket.

Be careful crossing the street:

✚ Cross only at corners or marked crosswalks.

✚ Stop at the curb, or the edge of the road

✚ Stop and look left, then right, then left again, before you step into the street.

✚ If a Car is parked where you are crossing, make sure there is no driver in the Car. Then go to the edge of the Car and look left-right-left.

Remember never walk close to the school bus. If you can't see the driver, the driver cannot see you! Watch out for the

DANGER ZONES

at the front, on the sides and in the back of the school bus!
